Professional Summary

Front-End Developer and IT Professional with 7+ years of experience building responsive web applications and supporting business technology environments. I started my career in web development, working with HTML5, React, TypeScript, and WordPress to design and optimize user-focused applications. Over time, I expanded into systems administration and IT support, strengthening my skills in Windows Server, Active Directory, Linux administration, virtualization, and networking.

I am currently enrolled in the Information Technology Professional program at triOS College, specializing in Infrastructure, Cloud, and Cybersecurity. Through both professional experience and formal training, I have gained hands-on exposure to Azure-based workloads, server configuration, identity management, and secure network environments. I combine development experience with infrastructure knowledge to solve complex technical problems, improve system performance, and support users effectively.

Technical Skills

- Front-End & Web Development: HTML5, CSS3, SCSS, JavaScript (ES6+), TypeScript, React, Angular, WordPress, Material UI, Bootstrap, Tailwind, Storybook, Responsive Web Design
- Mobile & App Development: React Native, Ionic, Flutter (basic), Firebase
- Backend & Databases: MySQL, PHP, Python (basic), SQL Server
- Software & Tools: VS Code, WebStorm, Git / SourceTree, Trello, Jira, Slack, Teams, Figma, Discord, Android Studio, Xcode, macOS & Windows utilities
- Design & 3D Tools: Adobe Photoshop, Illustrator, Blender, Maya, 3D Studio Max
- Microsoft Azure Virtual Machines, Virtual Networks, VPN configuration, Storage and Backup fundamentals
- Microsoft 365 Administration, Exchange Online, Entra ID, Intune, MFA and Conditional Access
- Windows Server 2019/2025, Active Directory, Group Policy, DNS, DHCP, IIS
- Linux Administration (Ubuntu, Fedora), Patch management and configuration
- Hyper-V and VMware virtualization
- TCP/IP, LAN/WAN troubleshooting, VPN configuration

Professional Experience

Front-End Developer

Devlift Media – London, Ontario | 2016 – 2023

- Developed and maintained responsive web applications using React, TypeScript, and Tailwind CSS.
- Improved website performance by optimizing code and assets, achieving 30% faster load times.
- Collaborated with UI/UX designers and backend teams to implement dynamic and interactive interfaces.
- Managed WordPress websites, implemented custom themes, and integrated APIs.

Front-End Developer (Contract)

Dentsu Creative Inc – Remote | Apr 2023 – Feb 2024

- Delivered modern, high-quality web components following Material UI and responsive design standards.
- Participated in Agile sprints, version control (Git), and code reviews to ensure high-quality delivery.
- Worked on corporate client projects ensuring performance, accessibility, and cross-browser compatibility.

Volunteer Computer Coach

London Central Public Library – London, Ontario | 2011

- Provided one-on-one computer training sessions and technical support to library patrons.
- Assisted with customer service and digital literacy initiatives.

Computer Technician

AMA Center – Groningen, Netherlands | 2006 – 2010

- Built, configured, and repaired desktop systems.
- Installed software, troubleshooted network and hardware issues.
- Supported clients with IT problem resolution and upgrades.

Computer Technician & Web Designer

IT-Unit – Groningen, Netherlands | 2004 – 2006

- Maintained company websites and provided retail-level technical support.
- Diagnosed and resolved computer hardware and network issues.
- Provided customer service and retail system maintenance.

Help Desk Service Technician

Floreshuis – Groningen, Netherlands | 2003 – 2004

- Supported users in troubleshooting network and system issues.
- Maintained hardware, performed software installations, and ensured operational continuity.
